Excerpts from ODP Div/Staff Reports for Week Ending
8 December 1981

Management

As of 8 December, there were 45 outstanding advances, none of which were delinquent. (AIUO) []

STAT

Draft GSA Procurement Regulations. The General Services Administration (GSA) frequently requests Agency comments on draft procurement regulations. A procedure was worked out with Chief, Procurement Management Staff, OL, to produce a consolidated Agency response on proposed Federal Procurement Regulations (FPR's) and Federal Property Management Regulations (FPMR's). ODP will coordinate a technical response using its network of component ADP Control Officers. Chief, PMS/OL, will consolidate the ODP technical response with procurement comments and submit an Agency response to the Interagency Procurement Policy Committee. This will avoid multiple Agency responses on a draft GSA regulation. (AIUO) []

STAT

Applications

Support to OP. PERHOSP (Personnel Hospitalization Insurance System). The planned move on 5 December of the Microdata 8000 was postponed due to problems with the optical isolator patch panel (wired incorrectly) and Delta Data terminals (not converted to military specification). The patch panel and Delta Data modifications will be completed early this week. The Microdata Reality 8000 computer move and the PERINSUR/CAPER systems installation is scheduled for 12 December. []

STAT

Administrative

STAT

[] reassigned from TS/A/ODP to NFAC on 7 December.

Processing

STAT

The IBM 3081 was successfully IPL'ed with MVS/SP on 7 December. Production use of the machine is anticipated by mid-January. []

SAFE

The Burroughs 6900 computer, installed in the [] Computer Center, was tested for 46 hours during this reporting period. Four memory failures resulted in 2 hours of down time. []

17 December 1981

Excerpts of ODP Div/Staff Reports for Week Ending 15 December 1981Management

Outstanding Advances. As of 15 December, a total of \$11,374 was outstanding on 24 non-delinquent advances to ODP personnel.

(U/AIUO) [REDACTED]

Change in POV Mileage Rate. Effective 6 December, the rate of reimbursement for use of privately owned vehicles is .20/mile vice .225/mile. (U/AIUO) [REDACTED]

Processing

RAMIS Release 2.1 is now running in test mode on the VM and batch systems in GC47. The scheduled production date for this software is 21 December. [REDACTED]

MPS. A bug has been discovered in the line handler between MPS and Datex which will cause MPS to go into a loop. A fix is being prepared by SPD and will be tested on the pseudo system next week. The fix will be installed after the BDS code is up. [REDACTED]

Applications

Support to OSWR. ADSTUDY (OSWR Minicomputer Feasibility Study). An Applications review of the feasibility study was held on 9 December in the 2D03 conference room. The feasibility study and cover memo have since been prepared in final form for distribution to OSWR/NSD. [REDACTED]

Support to OS. SARS (Security Access Records System). We completed program modifications which adds [REDACTED] and the SAFE Computer Center to SARS. The customer is in the process of acceptance testing. [REDACTED]

Support to OD&E. BDS (Bulk Data Services). ODP Production Control Branch is expected to complete acceptance testing. If no major problems arise out of acceptance testing, BDS will be incorporated into MPS (Message Processing System) on 19 December. BDS will provide the means to OD&E (and possibly other users in the future) for releasing messages from VM to DATEX to be transmitted outside of the Agency. [REDACTED]

Special Projects

Upcoming Events. The Phase II Block 1 Preliminary Design Review is due to be completed on 18 December. The revised Project Plan and Financial Plans are also scheduled to be delivered on that date. [REDACTED]

Administrative

[REDACTED] has completed backup training in the ODP Registry and on 14 December assumed responsibility for central secretarial functions in the Admin Staff. This will include responsibility for conference arrangements and, beginning 01 January 1982, the ODP T&A program.
